

[Meeting Notes] PeeringDB Outreach Committee

Date: 6th June 2021

Attendees:

- Arnold, Ben, Greg, Leo

Virtual Event

- Ben proposed 23rd June
- Looks to not clash with any of events
- Announce on week of 7th June
- Content based around the How-To for network operator content plus the comment themes

Focus Group

Leo updated on focus groups intended to be run on PeeringDB carrier object

- Around 29th June at an EMEA friendly time
- Plans for one a week later at an APAC friendly time
- Example uses of this object include
 - High capacity links between facilities
 - IX reseller
- Need to establish if there is enough user demand
- Request for OC support - Ben will email the distribution group

PR Requests

Discussed PR request from DE-CIX and agree dto::

- Prepare standard PR statement that can be used for future requests
- Share this with OC for sign off and then to Stewards on approval for processing

AOB

- Discussion IXF Member Export and recognising IXs who are using this functionality - call split so not all participants could hear each other... to
 - Question on whether we should recognise IXs using the IXF export functionality
 - Arnold highlighted that there was a outstanding feature request form those it might not make sense to build the automation for (for example small/new IXs)
 - Discussed tools such as IXP Manager support the integration out of the box
 - Agreed perhaps best way to represent this is a quarterly/six monthly chart showing feature takeup

Date of next meeting: 6th July 2021
